EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Greenfield on February 18, 2005.

The application has been amended as follows:

25. (cancelled)

Claims 12-21, 23 and 26 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 12, the prior art of record fails to teach or suggest a Bragg reflector comprising one or more first layers adjacent one or more second layers, the first and second layers having at least one sidewall and the first and second layer define one or more gaps; and a support layer formed over a portion of the sidewalls to support the second layers against

movement, the support layer partially overlaps a top side of a top layer of the one or more second layers.

Regarding claim 16, the prior art of record fails to teach or suggest a Bragg reflector comprising a substrate, a plurality of structure layers spaced apart by a gap and the layers having edges and a support layer about a portion of the edges for supporting the structure layers such that the structure layers remain stationary, the support layer partially overlaps a top side of the top structure layer.

Regarding claim 26, the prior art of record fails to teach or suggest a Bragg reflector comprising a substrate, a plurality of structure layers on top of the substrate each spaced apart by a gap, the structure layers having edges and a support layer being about a portion of the edges and overlapping a top portion of a top structure layer.

The remaining claims depend from claims 12 and 16 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
